Decision-Making Context and Scope

1. General Decision-Making Process: Consensus shall be the primary mode of decision making and efforts shall be made to extend dialogue and gather information toward consensus to the extent possible.

Should consensus not be achieved, any member of the UMC may call for a vote of the members. A vote of the body is not binding on the MSHN CEO, rather it is used to further inform as to the strength of the members' position on the subject. Any decision made subsequent to a vote of the UMC, including any items referred to the Operations Council (OC), shall reflect both the majority and minority opinions on that matter. The CEO shall inform UMC and OC members of the final decision/recommendation before further action is taken.

2. Specific authority/process related to the following: The UMC shall provide council to the MSHN CEO and OC on the Strategic plan, MSHN Policies and procedures, UM Criteria, performance monitoring and

sanctions. Advice and counsel shall be achieved through sharing of ideas, solution focused dialogue, and research.

Roles and Responsibilities

- a. Chairperson – With the MSHN designee, supports agenda development, runs the meeting and maintains order; may represent the committee and making reports on behalf of the committee. As a representative of their CMH, each member is responsible for informing and updating others within their agency of any pertinent information that has been reviewed and discussed.

Member Conduct/Ground Rules: Members of the MSHN UMC seek a meeting culture that is professional, productive, and comfortable. To that end, the following ground rules have been adopted:

1. Respect of others
 - Only one person speaks at a time; no one will interrupt while someone is speaking.
 - Each person expresses their own views, rather than speaking for others at the table or attributing motives to them.
 - No sidebars or end-runs.
 - Members will avoid grandstanding (i.e., extended comments/speaking), so that everyone has a fair chance to speak.
 - No personal attacks. “Challenge ideas, not people.”
 - Everybody will seek to focus on the merits of what is being said, making a good faith effort to understand the concerns of others. Questions of clarification are encouraged. Disparaging comments are discouraged.
 - Each person will seek to identify options or proposals that represent shared interests, without minimizing legitimate disagreements. Each person agrees to do their best to take account of the interests of the group as a whole.

2. Meeting Efficiency

- The agenda and related materials will be distributed one week in advance of the meeting.
- Members are prepared for the agenda content and have completed related assignments on time.
- Everybody agrees to make a strong effort to stay on track with the agenda and to move the deliberations forward.
- Members share equally in the work of the body.

3. Decision Making

- Members are respectful of the defined decision-making protocol and support decisions made of the body even when presenting a minority view.
- Each person reserves the right to disagree with any proposal and accepts responsibility for offering alternatives that accommodate their interests and the interests of others.
- Everybody will follow the "no surprises" rule. Concerns should be voiced when they arise, not later in the deliberations.

Meetings

- a. Regular Meetings: Will typically occur monthly.
- b. Special Meetings: Special meetings shall occur as determined by the consensus of the group and as business of the body necessitates.
- c. Attendance at Meetings: Members shall regularly attend or send a designee who is prepared to act on behalf of the appointed member.
- d. To the extent possible the agenda shall clarify the context of a discussion to support the need for SMEs or in determining an alternate for meeting attendance.
- e. Key Decisions: The recorder shall prepare a meeting summary ("Snapshot") that reflects key decisions and required actions to occur subsequent to the meeting. The required actions shall specify what, who, and by when. Committee recommendations will be made available to the appropriate committee and/or council (i.e. Operations Council, Clinical Leadership Committee, Provider Network Committee, MSHN Committees and Teams).
