This meeting of the Mid-State Health Network SUD Oversight Policy Board is being held virtually under 2020 PA 254, Section 3a.(1) (b) which permits an electronic meeting of a public body due to a local state of emergency declared for the area which the public body usually holds its meetings in order to protect the health and safety of the board, staff and members of the public that participate in this meeting of this public body. MSHN offices are located in Ingham County, and this is the "usual meeting location" for Oversight Policy Board meetings. On May 25, 2021, the Ingham County Board of Commissioners continued its declaration of a county-wide state of emergency through June 30, 2021. The videoconferencing technology used for this meeting is intended to permit two-way communication for all meeting participants. If special accommodations are needed, please contact MSHN administration at 517.253.7525 as soon as possible.

## Annual Disclosure of Ownership, Controlling Interest, and Criminal Convictions

MSHN is contractually responsible for monitoring ownership and control interests within its provider network and disclosing criminal convictions of any staff member, director, or manager of MSHN, any individual with beneficial ownership of five percent or more, or an individual with an employment, consulting, or other arrangement with MSHN. Therefore, Board of Directors must complete an annual disclosure statement that ensures MSHNs compliance with the contractual and federal regulations to obtain, maintain, disclose, and furnish required information about ownership and control interests, business transactions, and criminal convictions.

In short order, Board Members will receive an email from Carolyn Tiffany, MSHN's Director of Provider Network Management Systems, with a request to complete and electronically sign a disclosure form (via DocuSign). The form can be completed on a smart phone or computer.

Common questions that arise when completing the form:

**Question:** Do I have to provide my social security number?

**Answer:** 42 CFR § 455.104 requires names, address, DOB, and Social Security numbers in the case of an individual.

**Question:** How will my information be kept confidential and secure?

**Answer:** MSHN maintains policies and practices that protect the confidentiality of personal information, including Social Security numbers, obtained from its providers and associates in the course of its regular business functions. MSHN is committed to protecting information about its providers and associates, especially the confidential nature of their personal information. Access to this, and other confidential documentation, is limited to MSHN staff who need to access information in order to perform their duties, relative to monitoring disclosures.

**Question:** What does MSHN do with the information it obtains through disclosure statements?

**Answer:** MSHN is required to ensure it does not have a 'relationship' with an 'excluded' individual and must search the Office of Inspector General's (OIG) exclusions database to ensure that the provider entity, and any individuals with ownership or control interests in the provider entity (direct or indirect ownership of five percent or more or a managing employee), have not been excluded from participating in federal health care programs. MSHN must search the OIG exclusions database monthly to capture exclusions and reinstatements that have occurred since the last search, or at any time new disclosure information is provided.

MSHN understands this is a new platform to obtain the information, so if you have questions about the disclosures or need assistance completing the electronic form, please feel free to reach out to Carolyn Tiffany at 517.657.3000 or via email at [Carolyn.Tiffany@MidStateHealthNetwork.org](mailto:Carolyn.Tiffany@MidStateHealthNetwork.org).

**1. MSHN Internal Updates:**

- MSHN is pleased to announce our newest team member, Sheryl Kletke. She began her employment with MSHN on June 7, 2021, as the Executive Assistant. Sherry comes to us with over 20 years of experience from Community Mental Health Authority of Clinton, Eaton and Ingham.
- MSHN staff continue to work 100% remote except for one staff person. Sheryl Kletke has been assigned to manage in-office operations, until a return-to-work plan has been finalized. Staff report being able to maintain job responsibilities and support of our network with minimal interruption/change in functions.
- MSHN's Provider Network continues to provide essential services and supports with a mix of both in-person and telehealth services.
- MSHN continues to meet weekly with MDHHS regarding COVID-19, including pandemic updates, new policies/waiver change, and provider stabilization supports. The latest updates have included directions and/or concerns regarding the vaccination roll out by health departments.
- MSHN's [COVID-19 webpage](#) provides updates regarding federal, state and regional responses to the pandemic. Included under the resources section is [COVID risk graphs](#) for our region available for use by the network.

**2. Parameters for the new COVID-specific SAPT Block Grant funding**

MDHHS has received federal approval of its spending proposal. MDHHS/OROSC is developing a request for information/proposals to be completed by Michigan's PIHPs consistent with federal and state guidelines, which have not yet been officially released. State matching appropriations will also be needed.

MDHHS also recently received a Notice of Award from SAMHSA for a another COVID-19 Block Grant Supplemental funded by the American Rescue Plan. The amount of funding provided to Michigan by this grant is \$45,374,413. The grant period is from September 1, 2021, to September 30, 2025. As was the case with the previous supplemental, they need to submit a spending proposal due July 2nd to SAMHSA for approval to draw down funds.

**3. Mid-State Health Network Board Statement on Legislative Public Behavioral Health Systems Redesign Proposal**

Recent proposals in the House and Senate fundamentally change the public behavioral health system. The Mid-State Health Network Board of Directors opposes these proposals because:

- Beneficiaries and their families, and the communities that support them, are opposed as was well documented in prior redesign efforts and would stand to lose access to

services, supports and input into the design and operation of their services and supports system. Many Michiganders are left out of the redesign proposals completely.

- Public oversight, governance, operations, and accountability would be ended.
- Current proposals for redesign are not based on performance metrics related to positive outcomes, effectiveness, and efficiency measures associated with the current public system and there is no clear statement about the problem or problems that the Senate or House are attempting to address or solve.
- These proposals incentivize and prioritize profits to private companies at the expense of the public and the beneficiaries served by the public behavioral health system.
- These proposals, if enacted, would inappropriately overlay a medical model where a social supports and service model is necessary to effectively support beneficiaries.
- These proposals seek financial integration and ignore integration where it is most meaningful and beneficial to recipients, which is at the point of service.

Instead of damaging the public behavioral health system through pursuit of these proposals, recent innovations by the public behavioral health system should be supported. The Mid-State Health Network Board of Directors supports, and asks our Legislative and Executive Branch leaders to support:

- Certified Community Behavioral Health Clinics (CCBHCs).
- Behavioral Health Homes.
- Opioid Health Homes.
- State Innovation Models.
- Local primary and behavioral health integration infrastructure and care coordination at the point of service delivery.

These innovations themselves address most access challenges and gaps of most concern to citizens and PIHPs and should be fostered, nurtured and supported by State government.

To view the full statement, see [MSHN Statement on System Redesign](#).

## **STATE OF MICHIGAN/STATEWIDE ACTIVITIES**

### **4. Open Meeting Act Statute – Virtual Meetings Extended:**

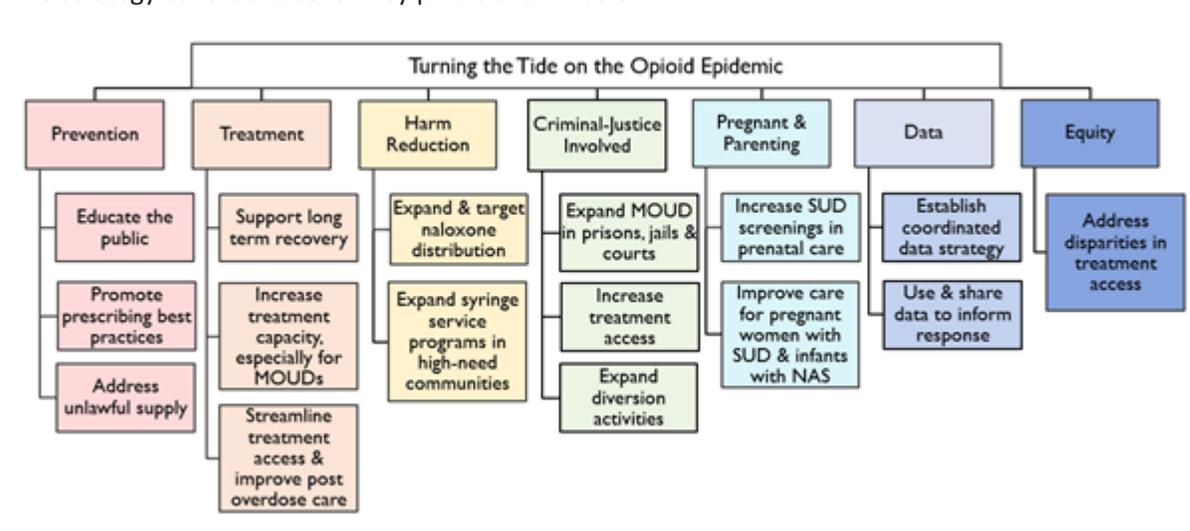

The Michigan Legislature has passed, and Governor Whitmer has signed, what is now PA 254 of 2020 which extends authorization for virtual meetings of public bodies for any reason through March 30, 2021. On and after March 31 through 12/31/21, virtual meetings are only allowed under specific circumstances, which includes if the county declares a Public Health Emergency (PHE). Ingham County declared a PHE through June 30, 2021. MSHN will monitor the declaration for extension of the due date, but anticipates the August 2021 SUD Oversight Policy Board meeting will be a hybrid of both in-person and virtual attendance.

### **5. Michigan Opioids Task Force Annual Report**

The Michigan Opioids Task Force and Michigan Department of Health and Human Services (MDHHS) have released the 2020 annual report that highlights the state's efforts to respond to the opioid crisis. Highlighted initiatives include launching a statewide naloxone portal that has distributed over 100,000 kits containing the lifesaving overdose reversal medication. Another is starting a public media campaign focused on elevating the voices of Michiganders who have lived experiences to share the effect of opioids and increase awareness of harm reduction services. That campaign has gained national attention.

MDHHS also worked closely with the Michigan Opioid Project in 2020 to launch programs based in 17 hospital emergency departments to treat opioid use disorder with plans to expand statewide in 2021. The 2020 Michigan Opioids Task Force Annual Report, which can be found on the [Michigan Opioids Resource website](#), outlines progress by the group, which was appointed by Gov. Gretchen Whitmer as part of a goal to reduce opioid overdose deaths in Michigan in half from 2020 to 2025.

The strategy covers the seven key pillars shown below:

**6. MDHHS Suicide Prevention Commission Releases Initial Report**

The MDHHS Suicide Prevention Commission has worked diligently on the report over the past several months to address suicide in Michigan. The Suicide Prevention Commission meetings are open to the public. More information on meetings and past meeting minutes can be found on the [MDHHS - Michigan Suicide Prevention Commission website](#). The initial report is also posted there. Over the next few months this report will be reviewed all over the state and plans will be made to implement these recommendations.

## **FEDERAL/NATIONAL ACTIVITIES**

**7. Medicaid Delivery System Reforms for Substance Use Disorder**

The Milbank Memorial Fund has released two documents addressing Medicaid Delivery System Reforms for Substance Use Disorder. “As the nation’s largest payer for SUD treatment and recovery services, Medicaid plays a significant role in shaping their delivery and reimbursement. The document by Academy Health’s Medicaid Outcomes Distributed Research Network examines the policy levers available to state Medicaid programs to improved SUD treatment—and offers examples of SUD care delivery innovations. First is a primer that outlines how state Medicaid programs can use their roles a payer and contractor, collaborator, evaluator, and educator, and as regulator, monitor and enforcer to improve SUD treatment—and offers examples of SUD delivery treatment. A new issue brief describes two important opioid use disorder delivery innovations: 1) health homes, and 2) warm handoffs and care transitions.” The primer is available at [Primer on State Medicaid Programs](#), while the issue brief is available at [Issue Brief on Medicaid Programs](#).

The Milbank Memorial Fund has released a blog post entitled *The Need to Expand Buprenorphine Prescribing to Treat Opioid Use Disorder*. The post notes that “despite overwhelming research showing that three approved medications to treat opioid use disorder (OUD) are effective, too few of the estimated 1.6 million US residents with the disease can access these medications. In particular, buprenorphine has been shown to reduce mortality and illicit opioid use and increase treatment retention. Yet in 2019, only 18.1% of people with OUD received buprenorphine or one of the other approved drugs. One important reason for the low rate of buprenorphine use is that too few medical professionals prescribe this clinically effective treatment.”

The entire blog post is available at [Milbank Blog Post](#)

## **8. One Year into the Pandemic: Implications of COVID-19 for Social Determinants of Health**

The Kaiser Family Foundation has released a briefing entitled *One Year into the Pandemic: Implications of COVID-19 for Social Determinants of Health*. The paper notes that “Even as the COVID-19 vaccine roll-out is accelerating across the country, the public health and economic effects of the pandemic continue to affect the well-being of many Americans. The American Rescue Plan includes additional funding not only to address the public health crisis of the pandemic, but also to provide economic support to many low-income people struggling to make ends meet. Millions have lost jobs or income in the past year, making it difficult to pay expenses including basic needs like food and housing. These challenges will ultimately affect people’s health and well-being, as they influence social determinants of health. This brief provides an overview of social determinants of health and a look at how adults are faring across an array of measures one year into the pandemic. Addressing the question of ‘How are adults faring across a range of social determinants of health during the pandemic?’ the brief notes that:

Across a wide range of metrics, large shares of people are experiencing hardship. Since the start of the pandemic, shares of people reporting hardship across various measures has been relatively constant, with a slight peak for the December reporting periods. For the most recent period, February 3-February 15:

- Nearly half adults (47%) reported that they or someone in their household had experienced a loss of employment income, and one in five applied for Unemployment Insurance (UI) benefits since March 2020;
  - More than six in ten (61%) adults reported difficulty paying for usual household expenses in the past 7 days, and 27% used credit cards or loans to meet household spending needs;
  - More than 7% of adults had no confidence in their ability to make next month’s housing payment (across renters and owners), and 11% reported food insufficiency in their household;
  - Three in ten (30%) adults reported delaying medical care in the last four weeks due to the pandemic and 39% reported symptoms of depression or anxiety.
- Black and Hispanic adults fare worse than White adults across nearly all measures, with large differences in some measures. For example, just over 75% of Black and Hispanic adults reported difficulty paying household expenditures compared to 53% of White adults; about 13% of Black and Hispanic adults reported no confidence in their ability to make next month’s housing payment compared to 5% of White adults, and 20% of Black adults and 18% of Hispanic adults reported food insufficiency in the household compared to 8% of White adults.
  - While variation across age and gender was not as stark, in general younger adults (ages 18 to 44) and women fared worse on most measures compared to older adults and men. For example, higher shares of younger adults and women reported symptoms of anxiety and depression as well as difficulty paying for usual household expenses. Higher shares of younger adults reported food insufficiency in their household and higher shares of women reported delaying medical care in the last four weeks due to the pandemic. As with race/ethnicity, some of these differences in social determinants were present even before the

pandemic but understanding them in the context of heightened levels of need over the past year highlights these differences and who may benefit most from assistance.

- Across most measures, adults with children in their household fared worse compared to overall adults. For example, 53% of adults with children in the household experienced loss of employment income in the household compared to 47% of adults overall, and just over two-thirds of adults with children in the household reported difficulty paying for household expenses compared to the overall population of 61%. Notably, adults in households with children were more likely to report food insufficiency than the general population.”

## 9. **Biden-Harris Administration Announces First-Year Drug Policy Priorities**

The [Biden-Harris Administration’s Statement of Drug Policy Priorities](#) lays out the urgent, first-year steps that must be taken to address the Nation’s overdose and addiction epidemic. The implementation of these priorities will complement both President Biden’s tireless efforts to give American families the tools they need to build back better and implement the American Rescue Plan, which includes an investment of nearly \$4 billion in behavioral health services.

As we strive to face a unique set of challenges in addressing the COVID-19 pandemic in our Nation, we must simultaneously address the worsening addiction and overdose epidemic. These actions are critical at a moment when the latest provisional data from the Centers for Disease Control and Prevention shows that 88,000 people died of an overdose in the 12-month period ending in August 2020, a 26.8% increase, year-over-year. Similarly, overdose rates are also increasing in certain communities of color, underscoring historic racial inequities.

That is why the Biden-Harris Administration is taking a focused, whole-of-government approach to reducing overdoses and saving lives. In the next year, the Office of National Drug Control Policy (ONDCP) will work across the government to implement the following seven priorities:

- Expanding access to evidence-based treatment
- Advancing racial equity in our approach to drug policy
- Enhancing evidence-based harm reduction efforts
- Supporting evidence-based prevention efforts to reduce youth substance use
- Reducing the supply of illicit substances
- Advancing recovery-ready workplaces and expanding the addiction workforce
- Expanding access to recovery support services

### **Block Grant Update**

Federal Substance Abuse Prevention & Treatment Block Grant (SAPTBG) Funds are available to pay the cost of services for individuals who have no insurance or are underinsured. These dollars may also be used to fund discretionary services that are not funded by Medicaid or HMP (examples: transportation assistance, recovery housing). Beginning January 1, 2021, MSHN implemented a number of Block Grant Spending Reductions strategies to align actual expenses with a nearly 37% decrease in MDHHS funding. The summary of changes includes benefit plan modifications such as authorization adjustments and reduced service episodes. In addition, some services were impacted by implementing lower reimbursement rates and applying higher consumer copays.

**Please Note:** MSHN committed that individuals already in treatment prior to January 1, 2021 would not be subject to the new Block Grant benefit limits. As such, the Utilization Management team continued to authorize accordingly at previous levels. As we move throughout the remainder of Fiscal Year 2021, we anticipate a more noticeable reduction in costs as those individuals phase out of treatment. Persons who entered treatment on or after January 1, 2021 are subject to benefit limits.

The strategies implemented are helping MSHN see lower overall trends in paid amounts, cases, and units since January 2021. The attached document displays spending from July 2020 through April 2021. The Analytical Summary box on page two (2) examines the average for July - December 2020 as compared to January and then the next month February is compared to the prior one and so on. The analysis highlights that we are moving in the right direction to achieve the goal of bringing actual expenses closer to available Block Grant Revenue. A few items to note regarding the analysis:

- April 2021 data is not included as claims for this month are incomplete (claims lag). In addition, report totals for months included in the attached analysis may vary as more claims trickle in but significant changes are not anticipated.
- Case count decreases should be primarily related to Block Grant changes.
- Unit decreases result from Block Grant changes and shifting multiple services into one bundled reimbursement.

This report format will be used to keep you updated for the remainder of this fiscal year-end (9.30.2021).

PREVENTION GOALS	RESULTS & PROGRESS
<p><b>Reduce Underage Drinking</b></p>	<p>Working with youth continues to be challenging amid the COVID pandemic. MSHN Prevention Specialists offer in-person; virtual; or hybrid curriculum/classes in efforts to reach youth during school or after school sessions. The same is true for community. Parenting classes are being held – using variety of in-person, virtual or hybrid techniques. Examples of evidence- based education classes addressing alcohol issues include Too Good for Drugs; Teen Intervene; Above the Influence; Jump; Break-Out; Stepping UP Together; Smart Moves; etc.). Some MSHN Prevention Specialists participate in the Michigan Coalition to Reduce Underage Drinking (MCRUD); sharing information with coalition and community – one effort being worked on by coalitions to educate legislators on the inappropriateness of allowing alcohol sales to 4 a.m. Some Prevention Specialists conducted education with vendors on alcohol products and conducted TIPs training (server training for on-premise and off-premise sites) and one group is working on Alcohol Policy Issues (both local and state levels).</p>
<p><b>Reduce prescription and over-the-counter drug abuse, including opiates</b></p>	<p>Education/awareness presentations continue to be conducted with variety of community groups regarding opioid misuse/ over-the-counter abuse; etc. Prescription drug presentations; prescription drug committees; drug action teams are examples of committees working in almost all MSHN counties. SOR grant funds (plus SOR-NCE Supplemental funds) has allowed purchase of supplies such as lock-boxes; syringe take-</p>

	back containers; medication disposal bags to be distributed in communities expressing need and communities are prioritizing need for expenses this year. Coalitions continue to deliver Narcan kits and resources in communities all around MSHN region. FAN (Families Against Narcotics) and Project Hope continue to meet in multiple communities across the 21-county region. Project Assert continues to be successful under SOR funding. An anti-stigma campaign 'Chances Are' is being conducted across several counties also.
<b>Reduce youth access to tobacco</b>	The Master Retailer List of Tobacco Vendors /was updated by DTYR/Prevention Specialists in each county and was submitted to the State timely. This information is used for vendor education and in the formal SYNAR process conducted later this year. Some vendor education and non-formal SYNAR checks occurred during this quarter. "Vaping" by teens continues to be key focus of concern for multiple counties. Examples of education for youth and families/communities includes the Quit Juuling program; E-Cigarette education; Vaping Intervention; etc. Many coalition have sub-committees dedicated to reducing tobacco/vaping use by youth. Some examples include the Breathewell Committee and Tobacco Free 21.

<b>TREATMENT GOALS</b>	<b>RESULTS &amp; PROGRESS</b>
<b>Increase women's specialty service programs</b>	There has been no addition or expansion of Women's Specialty service programs during this quarter. One provider has expressed interest in adding these services as well as one provider that has expressed an interest in expanding, however, with the pandemic still upon us those initiative have been put on hold. Most recently, Catholic Charities of Owosso has discontinued their WSS programming due to insufficient staffing.
<b>Increase array of medication assisted treatment programs</b>	The MSHN Action In Motion (AIM) Mobile Care Unit has partnered for a pilot project with Recovery Pathways and Great Lakes Bay Health (FQHC) to offer comprehensive services in Midland County at two locations. They will be offering MAT services, SUD treatment and supports, physical healthcare,

	<p>psychiatric care, mental healthcare, as well as dental services. Pending a six month evaluation of this project, a determination will be made whether to expand this effort to other counties.</p> <p>Jail-based MAT services began February 1, 2021 at the Newaygo County Jail offered through Arbor Circle of Newaygo. These services provide treatment as well as buprenorphine to incarcerated adults, with continuation of care occurring at Arbor Circle upon release from incarceration.</p>
Increase engagement, retention & completion of treatment	Please see chart below.
Increase inter-agency collaboration of service delivery	As described above, a new collaboration of service delivery is occurring between Recovery Pathways, MSHN, and GLBHC. Jail-based services throughout the region also have been an increase of collaboration of service delivery.
