6/23/2022 Agenda Item	Action Required				
CONFLICT-FREE ACCESS AND PLANNING WORKGROUP	Standing Update - 4 Breakout Groups Report Out Group 1: Access to Services, Continuity of Services, Autonomy of Personal Choice Group 2: Range from Status Quo, Organizational Viability Group 3: Administrative Efficiency, System Structures & Relationships Group 4: Alignment in System				
	No Action Needed at this time; Continue standing monthly updates	By Who	N/A	By When	N/A
MSHN PERFORMANCE IMPROVEMENT PROJECT	Seeking committee feedback about barriers and potential intervention for the upcoming PIP related to racial disparities in CMHSP service penetration rates. Reviewed baseline data for the PIP and possible identified barriers. The PIP is on service penetration rates for historically marginalized groups. Barriers discussed: lack of awareness of services, stigma, and different perceptions of stigma in obtaining physical care and mental health care. Individuals may also feel that there may be few persons like them from whom they can receive services. There is also systemic mistrust of care systems, not just the personal experience. Saginaw is awaiting the results of their racial disparities study. They have found very similar barriers thus far. Geographically, how far are providers from persons they would be serving?				
	Skye will share this feedback with Sandy Gettel.	By Who	Skye	By When	7/15
SERVICE AVAILABILITY AND PERSON-CENTERED PLAN	Process for including medically-necessary services/supports in PCP when there are provider shortages and service availability issues. The service, even if unavailable, should be on the PCP because it is medically necessary. This would be an adequate notice issue due to lack of providers, like waiting for CLS.				
	CMHs should ensure that these occurrences are being documented.	By Who	N/A	By When	N/A
NUMBERED LETTER L-22-26: WRAPAROUND SERVICES	Requirements for evaluation and outcomes measurement for wraparound services. Expectation that all children/youth in CCI placements have a wraparound facilitator and CMHSP capacity with trained facilitators and supervisors. Shifting responsibility for placement to CMHSPs as opposed to foster care and juvenile justice. Need for WRAP trainings by MDHHS. Increased instances of county DHHS offices seeking foster care exceptions to have CMHSPs place adolescents in adult AFCs. Joelin is on a state level workgroup that is looking to address children's issues among the agencies. Looking at doing a survey. DHHS has reduced number of children's residential beds which is NOT indicative of need going down.

BEHAVIOR TREATMENT FAQ UPDATES	Clinical barriers, recommendations/interventions will need to be updated by CLC or the BTPR workgroup. Reviewed 2 updates to the FAQ document related to token economies and use of psychotropic medications outside of person's diagnosis in order to address behavioral concerns

SEDW/CWP 101 TRAININGS	Todd previously forwarded training information to CMHSPs. MDHHS will be contacting each PIHP to coordinate training needs for the PIHP's region.				
	No action needed at this time. Todd will keep the group updated	By Who	N/A	By When	N/A
1915 (i) SPA	Full training for CMHSP 1915(i) leads occurred at the end of May. Training powerpoint located in today's meeting folder. DSA/WSA Gaining Access Training scheduled next week – only for new users who have never used WSA before. When CMHSP users request access to one of the state applications such as CC360 or WSA, an immediate manager request will come to MSHN for approval before moving to MDHHS for approval. CMHSP WSA user training will occur 9/8/2022. The 9/8/2022 training will cover detailed process for enrollment and approval of 1915(i) services. All individuals who are eligible for 1915(i) services will be phased in to the WSA between September 2022 – September 30, 2023. Concerns that this is an administratively burdensome process without a clear connection to improvements in care.				
	Please send any questions/concerns regarding 1915(i) WSA user training to Todd. CMHSPs should hold on establishing any workflow process; we will revisit this to discuss efficiencies	By Who	All	By When	ASAP
MiCAL ROLLOUT	Updates regarding CMHSP meetings with MDHHS; questions; concerns. No concerns at this time; all CMHSPs have completed onboarding sessions for MiCAL

CLC – BEHAVIORAL TREATMENT REVIEW DATA FY22 Q2	FY22Q2 report is available for review in the CLC/UMC folder.				
	No action needed at this time.	By Who	N/A	By When	N/A
CLC – SERVICE DELIVERY SYSTEM POLICIES AND PROCEDURES	Bi-annual policy and procedure review for pertaining to service delivery and clinical content. Due to the number of policies/procedures, they will be broken up during the months of June/July/August				

		By Who		By When	
	Carry forward to July; CLC members please review the policies and procedures in today's meeting folder and provide recommended edits and feedback.	By Who	All	By When	Prior to July Meeting
UMC – FY22 Q2 MCG RETROSPECTIVE REVIEWS	Q2 MCG reviews were 100% compliant (all retrospective cases aligned with MCG criteria). Todd and Skye are meeting with MCG account representative to schedule a regional technical assistance training. The intent is to address specific workflow questions/concerns and implementation challenges.				
	Please email Todd and Skye with any specific items to be included in the technical assistance session	By Who	All	By When	ASAP
PARKING LOT	CMH Individual Outliers Report – Provide update in July about revisions to report

Update in MIKIDS NOW	1) Access to Care, Moving to the CANS, leaving the CAFAS out, unsure about the DECA. 2) Workforce development for kids programs 3) ICSS-no further discussion on stance from MDHHS yet. 4) Not addressed – shortage of hospital beds and specialized residential placements (Important to define role of CMHSP in terms of not being placing agencies for child welfare and juvenile justice cases when child is not clearly experiencing mental health symptoms primarily)				
	Todd is forming regional children's services committee which will continue to monitor updates to the MiKIDS Now initiative and identify priority areas of need for region	By Who	N/A	By When	N/A
