This is a standardized bio-psycho-social assessment designed to help clinicians gather information for diagnosis, placement, and treatment planning. As with any self-report, the GAIN is limited by the veracity of the individual respondent's answers; it should be collected by someone certified in GAIN administration, combined with other information and interpreted by clinical or other qualified personnel prior to taking any specific actions.

The information on this form must be handled in the strictest confidence and will not be released to unauthorized personnel. In accordance with the provisions of the Privacy Act of 1974 and the Health Insurance Portability and Accountability Act (HIPAA) of 1996, unauthorized disclosure can result in fines for each violation. All staff with access to the specific answers on this form must understand this restriction and agree to resist sharing specific answers without prior written consent.

The current version of this instrument was developed by Dr. Michael Dennis and others at Chestnut Health Systems. Its development was supported by grants and contracts from the Center for Substance Abuse Treatment, Interventions Foundation, National Institute on Alcohol Abuse and Alcoholism, and National Institute on Drug Abuse. It also incorporates several scales and questions based on the National Family Violence Survey, National Household Survey on Drug Abuse and work by the American Psychiatric Association and the American Society of Addiction Medicine, as well as input from many individuals fully acknowledged in the manual and on the website referred to below.

Introduction

Important: Read this introduction to the participant. **Purpose**: This assessment is designed to help us track how you are doing before, during and after treatment or counseling. The information we collect will only be used for your treatment and to help us evaluate our own services.

Format: This initial assessment has questions about what you have done, what services you are using and what you currently want from the program, either directly or through referral. You will be able to say you do not know or refuse to answer any question that you do NOT want to answer.

Length: Depending on how much has been going on in your life, it will take about 1-2 hours to complete. You will be able to take a break if you need to.

Privacy: As with everything you do in treatment, your answers are private and your confidentiality is protected under the Privacy Act of 1974 and the Health Insurance Portability and Accountability Act (HIPAA) of 1996.

Confidentiality: All research and clinical staff with access to your answers understand this restriction and have agreed to resist sharing your specific answers without your prior written consent. This includes giving information to family members, other individuals, other treatment agencies, social work agencies, criminal justice agencies and other agencies. (READ ONLY IF APPLICABLE: We have also obtained a certificate of confidentiality to prevent us from being forced to give any information to the court.) There are, however, two exceptions. First, we are mandated to report child abuse or if you are presently a danger to yourself or others. Second, officials from the federal government have the right to audit us to check to make sure we have protected your safety and accurately reported what we have done.

Any questions?

Be sure to read the statement about exceptions to confidentiality, and be sure to ask, "Any questions?"

A2. Check for Cognitive Impairment

Because we are going to ask you a lot of questions about when and how often things have happened, we need to start by getting a sense of how well your memory is working right now.

Additional Instructions for Oral Administration

Please keep this calendar handy and use it as we go through the interview to help you remember when different things happened.

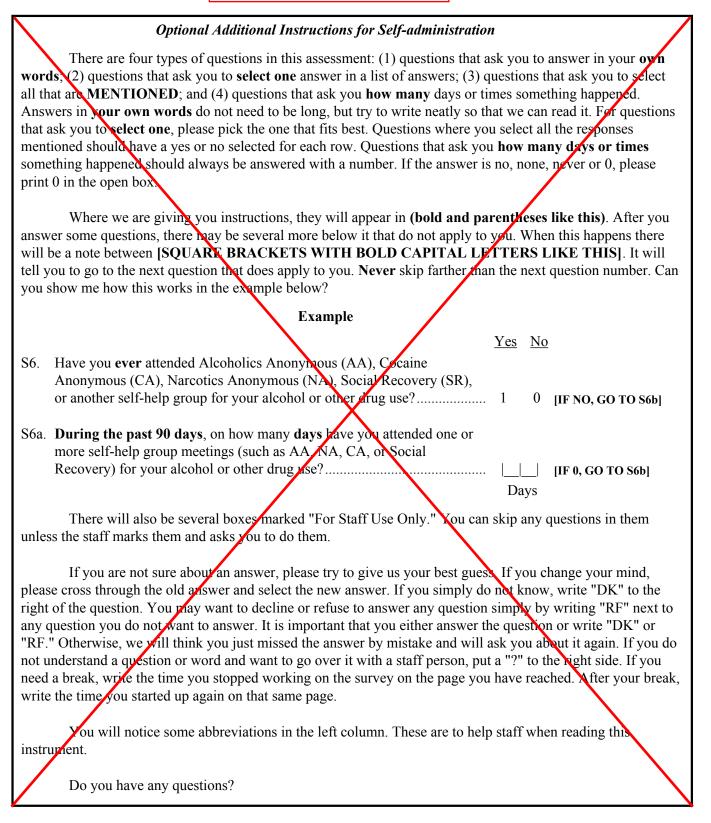

As we go through the questionnaire, I will read the questions and record your answers. It is important that you try to answer each question if you can and are willing to. We know that you will not always know the exact answer, but we would like you to give us your best guess if you can. You can also tell us if you simply do not know or if you do not want to or refuse to answer any questions. I also have some cards here that we will use to help answer some of the questions.

Do you have any questions before we begin?

Use DK for "don't know."
Use RF for "refused to answer."

to the participant.

Read these optional additional instructions only if the participant will be self-administering the GAIN.

R. Risk Behaviors and Disease Prevention

Next, we would like to ask a few personal questions about behaviors that may have affected your risk of getting or spreading infectious diseases. Please remember that all of your answers are strictly confidential.

The first questions are about the use of a needle to inject you with drugs or medication. Do **not** include shots given by a doctor or nurse, but do include if you were injected by someone besides a doctor or nurse or if you injected prescribed medication.
