

POLICIES AND PROCEDURE MANUAL

Chapter:	Service Delivery System		
Title:	Habilitation Supports Waiver Disenrollment and Transfer Procedure		
Policy: <input type="checkbox"/>	Review Cycle: Biennial	Adopted Date: 8.2015	Related Policies: HSW Policy
Procedure: <input checked="" type="checkbox"/>	Author:	Review Date: 11.12.2024	
Page: 1 of 3	Waiver Coordinator		

Procedure:

A. HSW Disenrollment: Disenrollment from the Habilitation Supports Waiver (HSW) Program may occur for any of the following reasons:

1. Death,
2. Move out of state;
3. Voluntary disenrollment (Guardian/beneficiary initiates disenrollment);
4. Involuntary disenrollment [Community Mental Health Service Program (CMHSP) initiates disenrollment for various reasons such as no HSW services or no longer meets eligibility criteria];
5. Nursing home placement;
6. Other (e.g., loss of Medicaid, move to another waiver, etc.)

Each Community Mental Health Service Program (CMHSP) must perform eligibility recertification on an annual basis. During this recertification process the CMHSP must determine whether the beneficiary continues to meet HSW eligibility criteria. If it is determined that the beneficiary no longer meets HSW eligibility criteria, then the CMHSP must clearly document such reason(s) and advance notice must be given to the beneficiary at least 10 days prior to the disenrollment date. The beneficiary has the right to appeal the disenrollment.

If an individual is disenrolling due to nursing home placement, a copy of the Level II Omnibus Reconciliation Act (OBRA) evaluation is required to be uploaded to the Document tab of the Waiver Supports Application (WSA) by the CMHSP during the disenrollment process.

Once it is determined as disenrollment is appropriate, the CMHSP will initiate the disenrollment in the WSA and submit to the Pre-Paid Inpatient Health Plan (PIHP) work queue. The HSW Waiver Coordinator or designee will review and submit to the Michigan Department of Health and Human Service (MDHHS) work queue. After MDHHS reviews, the disenrollment will be completed unless there is any outstanding need for additional information.

B. HSW Case and Slot Transfers:

1. Intra-regional Transfer – Including Transfer of Medicaid:
 - i. Both affiliate CMHSPs’ HSW Designees are responsible for collaborating to ensure all parties are aware of the move and the needs of the individuals. Both affiliate CMHSPs’ HSW Designees are responsible for contacting the PIHP HSW Coordinator with regards to the move to report when the move will take place and what services the beneficiary is utilizing as noted in the current Person-Centered Plan (PCP).
 - ii. The assigned CMHSP is responsible for contacting the receiving CMHSP prior to any move made by the beneficiary in order to promote a smooth transition and prevent gaps in service. Both affiliate CMHSPs are to collaborate to facilitate a smooth transition and prevent gaps in service.
 - iii. The PIHP HSW Coordinator is responsible for coordinating between each CMHSP and MDHHS with regards to confirmation from each CMHSP of the agreement to provide HSW

services to the beneficiary. The PIHP HSW Coordinator is responsible for the entry of the change of enrollment from the releasing CMHSP to the receiving CMHSP within the HSW WSA Portal.

2. Inter-Prepaid Inpatient Health Plan (PIHP) Transfer:
 - i. The CMHSP that will be providing services for an HSW enrollee from another PIHP must contact the HSW Coordinator to begin the HSW slot transfer. (The HSW Coordinator from the other PIHP should also be contacting the MSHN HSW Coordinator for coordination.)
 - ii. The PIHP HSW Coordinator will then coordinate the HSW slot transfer only between each PIHP and MDHHS. County of Financial Responsibility (COFR) agreements are separate from the HSW slot transfer.
 - iii. The HSW Coordinator will contact each PIHP to determine the official move date and will collaborate with the receiving CMHSP within the MSHN PIHP.
 - iv. The PIHP HSW Coordinator will confirm the acceptance of the HSW transfer with the Chief Executive Officers (CEOs) of each PIHP/CEOs of the CMHSPs. The acceptance of voluntary transfer of the HSW slot will be provided to MDHHS via a letter from each PIHP.
 - v. The accepting PIHP will then have final responsibility for the completion/maintenance of the HSW annual paperwork and maintenance of the HSW WSA Portal which will be delegated to the affiliate CMHSP.

Applies to:

- All Mid-State Health Network Staff
- Selected MSHN Staff, as follows:
 - MSHN’s CMHSP Participants: Policy Only Policy and Procedure
 - Other: Sub-contract Providers

Definitions:

- CEOs: Chief Executive Officers
