8/24/2023 Agenda Item	Action Required				
JOINT – Approval of October Minutes; Additions to Agenda	No additional agenda items. October Snapshot approved.				
	No action needed.	By Who	N/A	By When	N/A
JOINT – 1915(I) Policy and Procedure	. Brie Elsasser from MSHN reviewed the draft policy and procedure.				
	Committee members can add feedback to policy and procedure in Box or email to Todd.	By Who	All	By When	12/11/2023
JOINT – Bed Registry Data Points	What data points would be most important/useful in a future bed registry design? Real time bed availability is most important to allow efficiency when calling hospitals. Bed type – private vs shared, gender specific, etc. Rates/cost would also be helpful. Denial information to track and trend over time for specific hospitals, reasons for denial, etc.				
	Please email any feedback to Todd and Skye.	By Who	All	By When	11/30/23
JOINT – FY23 ICSS Data	Received and reviewed data.				
	No action needed.	By Who	N/A	By When	N/A
JOINT – Crisis Residential Update	Currently undergoing building revisions in anticipation of a tentative May 2024 opening. Program is called Healthy Transitions, operated by Family Health Psychiatric Services & Counseling. The facility is located in Alma across the parking lot from MyMichigan hospital. Starting with 6 beds with ability to expand to 12 beds at a later stage.				
	No action needed.	By Who	N/A	By When	N/A
JOINT- CFAP Update	Workgroup is ending this month, November 2023. MDHHS will be sharing feedback package from provider survey and consumer focus groups. There is a likelihood that there will be some type of structural mitigation between Access and Planning functions.

CLC- FY23 End of Year Balanced Scorecard

CLC-Ending PECFAS/CAFAS, start of MichiCANS Conversation	Clinically CAFAS/PECFAS is a great way to measure progress, will be missing this. Will be harder to track changes and will be losing the ability to determine level of care. Will they be eliminating the DECA as well? It will probably remain for the 0-5 group.

CLC-Courts and Youth Incompetence	There have been evaluations of incompetence "due to SED," which has also used the adult order to services. This seem to be coming up in certain areas of the MSHN region. These are rare but there is pushback from the courts about what the CMH is going to do to address the situation. There are disagreements with the courts. There are youth behaviors that cannot be written off with an SED diagnosis. The CMHs do not civilly commit youth. There may be a future need to address education with the courts.					
		By Who	N/A	By When		
CLC-QR Codes and Customer Service Handbook	There is the ability to scan a QR code to get information. Some LifeWays beneficiaries do not want great amounts of papers when leaving appointments and have expressed a desire to have some kind of alternative, like a QR code. As a choice the individual could use the QR code or obtain the paperwork.

UMC-FY23 Regional Denials Data	Reviewed yearly data for FY23 Q1-Q4. There has been significant improvement in the rate of timely Adverse Benefit Determination Notices (ABDN) for expedited authorization requests. This is due to improvement efforts to provide timely ABDNs for inpatient hospital denials at the time of screening. Excellent work throughout the region to improve reporting processes.				
	No additional action needed at this time.	By Who	N/A	By When	N/A
UMC-FY23 Regional ACT Utilization Data	Reviewed FY23 ACT utilization report and discussed potential causal factors for low average rates of weekly time per consumer. Please refer to report for additional notes and next steps.				
	CMHSPs will review data with ACT supervisors and identify potential barriers.	By Who	All	By When	2/2024
