Self-selecting a breakout room

If the host has allowed participants to self-select and join breakout rooms of their choosing, participants will be able to view and select from a list of breakout rooms the host has created. They will be able to enter and leave breakout rooms freely.

Note: Participants not joined with the desktop or mobile app (version 5.3.0 or higher) will not be able to self-select a breakout room. The host will need to facilitate moving these participants manually.

1. Click the **Breakout Rooms** option in your meeting controls.

This will display the list of open breakout rooms created by the host.

2. Click **Join** next to the Breakout Room you wish to participant in, then confirm by clicking **Join** again.
3. Repeat as necessary to join other breakout rooms, or click **Leave Room** to return to the main session.
