1	Hillsdale Outreach	naloxone distrilast month, the Connection Te touch point to on August 3rd individuals and the Condoms, hyg assembled. E 530 of these kooverdose prev. with safer use addition, local	e Hillsdale outreach team continued to build partnerships with local organizations by distributing naloxone to businesses in the area. They are continuing to work on obtaining loxone distro boxes to place in Hillsdale. Additionally, their third testing event took place on July 17th. One individual was tested for HCV and HIV. Following the OFR meeting it month, the program manager connected the medical examiner with the Director of Jackson programs to provide more information regarding the Jackson Recovery mencetion Team, as most of the individuals experience a nonfatal overdose so hortly before the fatal overdoses occur in Hillsdale County. The nonfatal overdose event could be a such point to offer resources and increase future access to naloxone for those in Hillsdale County. Also, the Harm Reduction team plans to bring their MCU to the Recovery Wa August 3rd. They hope to connect individuals to recovery resources, offer HIV and HCV testing, offer education on harm reduction, and build more partnerships with dividuals and agencies dedicated to saving lives, preventing disease, and promoting recovery.  For the last month, the Harm Reduction program continued to conduct outreach in Hillsdale County. Individuals encountered were provided with naloxone, drug test strips, andoms, hygiene supplies, feminine hygiene products, and some safe use supplies. Safer snorting, safer smoking, safer crystal, and safer rectal administration kits were sembled. Each kit contains one of the corresponding educational cards. The kits with the educational cards are requested or needed to participants. During July, 0 of these kits, containing 530 of the four types of educational cards. The kits with the educational cards are requested or needed to participants. During July, 1 of these kits, containing 530 of the four types of educational cards were assembled. The overdose prevention card with information on the Harm Reduction services and errose prevention was distributed at events in Jackson and Hillsdale Counties, as well as distrib

	1	In mid July, they began receiving supplies they ordered using MSHN Opioid Settlement Funds. They created an Eligibility and Procedure Document. Each member of the Heat Promotion and Prevention (HPP) team who would like to distribute items is required to read and sign this document and send it back to their supervisor before distributing it to participants experiencing OUD and/or polysubstance use disorder. The Part Time Opioid Use Disorder Navigator began entering daily number of clients she's been able to assist in a Dashboard created to capture these metrics.

		In July, their expanded outreach schedule has continued successfully, with mobile outreach continuing to run five days a week. They have maintained additional outreach every other Sunday and alternating Saturdays, which has allowed them to connect with even more community members in need of harm reduction services. HIV at-home testing kits are now integrated into their outreach provided by another organization while they wait for their order to go through and their staff's training to finish, addressing the service gap they identified earlier this year. This has already resulted in positive community feedback and increased engagement from individuals who previously did not have access to testing. They continue to see steady growth in both the number of individuals reached and the scope of services provided.

			Both individuals have passed the written portion of the CLD test and both now have learners permits through the Secretary of State. The next step is to obtain a DOT physical which will be scheduled within the next week
Midland			Planning group has met two times. Team is working on creating a monthly offering to the community that would start in August on National Overdose Awareness Day, and go through November. Logistics and curriculum are being worked out. Waiting for update from NMU for when they open registration for grief support specialist training.
	3	3 Staff secure Community Health Worker credential	Of the three positions they have identified to obtain the CHW training, two of the three are open positions. They, like many others have been challenged to find qualitied candidates to fill open positions. As of this update, they have hired for one of the open positions, and onboarding is happening this week. The CHW training will be part of the overall training plan. The CHW training begins August 26.
