

Arenac	Provider 1						
	Annual Summary						
	Provider 1 worked to equip local residents with vital tools to combat potential drug-related emergencies. This initiative is particularly crucial in isolated communities where emergency response times can be significantly delayed. Having immediate access to life-saving interventions is essential, as it can quite literally mean the difference between life and death. They ordered medication lock boxes to distribute to safely store medications, first aid kits to address medical needs, deterra pouches to safely dispose of medications, and wall mounted Narcan boxes to distribute Narcan to address community needs.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Distribution of Overdose Prevention Materials	Provider 1 was successful in ordering and distributing items to the community. During the period of April 1, 2025 thru September 30, 2025, they were able to distribute 100 medication lock boxes, 250 first aid kits, 75 Deterra pouches, and installed and supported 6 wall mounted Narcan boxes in the Arenac community.

Arenac, Bay, Gladwin, Isabella, Saginaw, & Shiawassee	Provider 2						
	Annual Summary						
	Provider 2 worked to reduce access barriers to treatment by subcontracting with Griffin Transit to provide transportation as needed to clients. They supported 82 trips over this reporting period. They also worked to expand services to the adolescent population by hosting groups for children and adolescents impacted by substance use disorders and death. In the groups, they had 63 encounters with youth, but did face the barrier of increasing attendance even with advertising. They also supported a part-time adolescent treatment coordinator position to create a thorough intake process and robust treatment program, update current policy manuals, and perform ongoing program monitoring and outreach coordination. They worked with schools to try to promote treatment in lieu of suspension.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Groups for children & adolescents impacted by SUDs overdose and death	Provider 2 was successful in increasing resilience in children and adolescents impacted by SUD by hosting groups for children and adolescents impacted by SUDs, overdose, and death. There were 10 groups held and 63 encounters with youth over this reporting period. There were several groups that did not take place as they did not have any attendance.				
	2	Expand services by hiring part-time Adolescent Treatment Coordinator	Provider 2 was successful in increasing the number of adolescents diagnosed with SUD seeking treatment by enhancing their programs to support ADHD co-occurring program, by working with the schools to promote treatment in lieu of suspension, and by engaging with the YMCA to promote services.				
	3	Transportation	Provider 2 was successful in supporting 82 trips for individuals receiving services over this reporting period to be able to engage in treatment services.				

	Provider 3						
	Annual Summary						
	Provider 3 planned and hosted Camp Connection. They had a total of 16 campers and 11 Teens Advocating Prevention volunteers. They used the Rainbow Days curriculum with a pre/post survey and had a 15% increase in positive self-esteem and awareness. They also worked to equip the community with resources to keep medications securely stored or safely disposed of by purchasing and distributing medication lock boxes and medication disposal pouches. They also worked to increase Narcan Distribution sites in high-risk areas and gaps throughout Bay County. They also had the goal of supporting overdose prevention efforts by purchasing and distributing sharps containers, wound care kits, and fentanyl test strips to individuals in active illness. They partnered with other organizations for distribution in addition to distributing themselves.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Rainbow Day Summer Camp	Provider 3 was successful in hosting Camp Connection. They had a total of 16 campers and 11 Teens Advocating Prevention volunteers. They used the Rainbow Days curriculum with a pre/post survey and had a 15% increase in positive self-esteem and awareness.				
	2	Distribution of Overdose Prevention Materials	Provider 3 was successful in ordering and distributing overdose prevention materials. They distributed 226 medication lock boxes, 17 packs of 100 medication disposal pouches, 4 Naloxone dispensing boxes, 72 sharps containers, 600 wound kits, and 5 boxes of 100 fentanyl test strips. They distributed these at events and to community partners.

Clare & Gladwin	Provider 4						
	Annual Summary						
	Provider 4 worked to equip local residents with vital tools to combat potential drug-related emergencies. This initiative is particularly crucial in isolated communities where emergency response times can be significantly delayed. Having immediate access to life-saving interventions is essential, as it can quite literally mean the difference between life and death. They ordered medication lock boxes to distribute to safely store medications, Narcan carrying cases for the lifesaving medication, first aid kits to address medical needs, and deterra pouches to safely dispose of medications. They also partnered with the health department for distribution of overdose prevention and wound care items such as alcohol pads, band-aids, gauze, Bacitracin, Narcan, fentanyl test strips, xylazine test strips, large sharps containers, and small sharps containers.						
	Outcome Reporting

Gratiot	Provider 8						
	Annual Summary						
	Provider 8 worked to increase the knowledge of their community members when it came to medication safety, proper medication disposal, medication storage, and support resources. They did this by continuing a bus ad campaign focused on safe medication disposal, which helps spread the information through the rural areas. They also ordered medication lock boxes to safely store medications, puncture resistant gloves to safely handle medications and needles, educational materials to promote increased awareness, fentanyl test strips to test substances, and RX drug rack cards.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Continue Bus Ad Campaign for Medication Disposal	Provider 8 was successful in continuing their bus ad campaign and in ordering and distributing items to the community.				
	2	Distribute overdose prevention materials	Provider 8 was successful in ordering and distributing items. Over this reporting period they distributed 260 medication lock boxes, 300 boxes of puncture resistant gloves, 1500 educational pamphlets, and 108 fentanyl test strips.

	Provider 9						
	Annual Summary						
	Provider 9 conducted outreach in Hillsdale County. They worked to build partnerships with local organizations by distributing naloxone. They held five HIV and HCV testing events at the Hillsdale ARE Drop-in Center. They provided testing to ten individuals at those events and six individuals at the 1st Recovery Walk in Hillsdale. One individual was referred to the Hillsdale Health Department for confirmatory HCV testing. They assembled safer snorting, safer smoking, safer crystal, and safer rectal administration kits. The kits with educational cards were distributed as requested or needed to participants. Over this reporting period, they distributed over 1,700 of these. They attended the Opioid Fatality Review meetings in Hillsdale to offer services to address gaps in care and prevent future overdoses.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Hillsdale Outreach	Provider 9 was successful in providing outreach in Hillsdale County. They provided HIV and HCV testing to 16 individuals. They assembled safer snorting, safer smoking, safer crystal, and safer rectal administration kits. The kits with educational cards were distributed as requested or needed to participants. Over this reporting period, they distributed over 1,700 of these.				
	2	Distribute overdose prevention materials	Between April and September 2025, the outreach team maintained consistent ordering, assembly, and distribution of supplies to support overdose prevention, safer use, wound care, and hygiene. They placed several NASEN orders to distribute items and assemble safer snorting, safer smoking, safer crystal, and safer rectal administration kits for distribution. Over 60,000 syringes ordered and distributed progressively from May–September, with continued restocking through fall. Over 2400 test strips were distributed, including fentanyl, xylazine, benzodiazepine, nitazene, methamphetamine, and medetomidine types.

Ingham, Jackson & Saginaw	Provider 11						
	Annual Summary						
	Provider 11 provided transportation assistance to clients receiving treatment and installed new dosing pumps in their Lansing, Jackson, and Saginaw locations.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Transportation (bus tokens, gas cards) \$10,000 for each of 3 locations	Provider 11 was successful in assisting individuals with transportation needs over this reporting period. They supplied Jackson with 1,000 gas cards, Saginaw with 900 gas cards, and Lansing with 300 gas cards. They ordered \$4,150 worth of bus passes for Lansing and \$1,960 for Saginaw.				
	2	Support installation of new dosing pumps in Lansing, Jackson, & Saginaw locations	Provider 11 was successful in ordering four new dosing pumps for each of their locations in Lansing, Jackson, and Saginaw. The new dosing pumps are for faster dosing times with more accuracy of methadone distribution.

Ingham, Eaton & Shiawassee	Provider 13						
	Annual Summary						
	Provider 13 worked to expand mobile outreach efforts to reach rural and underserved areas where access to services is limited. They expanded their mobile outreach to five days a week. Their goal was to increase outreach and distribution of sterile syringes, wound care kits, safe disposal containers, and retrieve filled used containers. They also enhanced education efforts on safer use practices, fentanyl test strips, and overdose prevention strategies.						
	Outcome Reporting

Isabella	Provider 14						
	Annual Summary						
	Provider 14 worked to equip local residents with vital tools to combat potential drug-related emergencies. This initiative is particularly crucial in isolated communities where emergency response times can be significantly delayed. Having immediate access to life-saving interventions is essential, as it can quite literally mean the difference between life and death. They ordered deterra buckets to safely dispose of medications and medication lock boxes and bags to distribute to safely store medications. They also partnered with the health department to order items such as wound care- alcohol pads, band aids, gauze, bacitracin, fentanyl and xylazine test strips, and sharps containers.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Overdose prevention with Health Department	Provider 14 was successful in ordering and distributing items to the community. Throughout this reporting period they distributed 82 medication lock bags and 97 lock boxes.

Mecosta & Osceola	Provider 15						
	Annual Summary						
	Provider 15 worked to equip local residents with vital tools to combat potential drug-related emergencies. This initiative is particularly crucial in isolated communities where emergency response times can be significantly delayed. Having immediate access to life-saving interventions is essential, as it can quite literally mean the difference between life and death. They ordered Narcan carrying cases, medication lock boxes to distribute to safely store medications, deterra bags to safely dispose of medications, and first aid kits to address medical needs.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	Harm Reduction Summit	Provider 15 was successful in putting on the harm reduction summit. This educational program helped reduce the stigma surrounding substance use, fostering a community culture rich in support, collaboration, and preventative strategies. The summit was hosted on August 6, 2025 and approximately 115 people attended. The feedback was excellent, with participants enjoying both the format, speakers, and the food/venue.				
	2	Distribute Overdose Prevention Supplies/Materials	Provider 15 was successful in ordering and distributing items. Throughout this reporting period, they distributed 75 Narcan carrying cases, 200 medication lock boxes, 50 deterra bags, and 80 first aid kits.

Midland	Provider 16		
	Annual Summary		
	Provider 16 worked to increase the education of their staff in order to better serve clients and reduce transportation barriers. Two staff secured their CDL with Class C in order to drive the agency bus to be able to go to regional mutual aid groups. The grief support specialist certificate opportunity ended, however six staff went through a 90 minute grief support in-service training. There were two grief groups that took place with the first group having six attendees and the second group having seven attendees. They had one staff work on a Community Health Worker credential, who should be complete within two weeks. They also prepaid for three additional future enrollments for Community Health Workers.		
	Outcome Reporting		
	No	Program/Activity	Outcome
	1	Staff secure CDL with Class C to drive agency bus	Provider 16 was successful in having two staff complete CDL training through Regen Trucking on 9/10/25, and pass the skills test on 9/19/25. Both have visited the DMV and obtained their CDLS.
	2	Staff secure grief support specialist certificate and provide grief support groups	Provider 16 was not successful in securing a grief support specialist certificate as this opportunity ended, however they did have six staff attend a 90 minute grief support in-service training. They were successful in hosting two grief groups. The first group had six attendees and the second group had seven attendees. They also plan on continuing groups after this reporting period.
	3	Staff secure Community Health Worker credential	Provider 16 was not successful in having staff secure the Community Health Worker credential, however they are in progress on this. The Clare Recovery Coordinator will complete her CHW training in the next 2 weeks. Three CHW training enrollments were prepaid for future enrollments. The enrollment certificates are good for one year. One will be used by a recently hired Recovery Coordinator in Mecosta County who will begin with Provider 16 in early November after she relocates to the community. One will be used by the Recovery Housing Coordinator, and the third one will be used for a new opening in Midland.

	Provider 17						
	Annual Summary						
	Provider 17 worked to host prescription take back events with local law enforcement. They also worked to order and distribute overdose prevention and infectious disease prevention items. They ordered 3 harm reduction stations, which will be installed upon receipt as there were delays in the shipment from the distributor. They also ordered syringe service supplies (alcohol pads, bandages, gauze, ointment, sterile water) for the harm reduction stations. They ordered wall mounted syringe disposal containers which were installed at a harm reduction station and county building bathroom with the plan to install two more at the jail and courthouse. They also ordered medication lock bags, fentanyl test strips, and xylazine test strips for distribution.						
	Outcome Reporting

	Provider 21						
	Annual Summary						
	Provider 21 worked to provide MOUD and group treatment in Tuscola County Jail in addition to disposing of sharps and ordering overdose prevention items for the community. They received two referrals for individuals for MOUD treatment from the jail. They provided 18 groups with 8-10 participants on average for each group. They also disposed of over 450 gallons of sharps in the community. The OSF funds allocated helped to bridge a gap in funding for MOUD medications for the county jail until a new fund source was able to begin in the fall of 2025. They also distributed 3 wall mount Narcan boxes, 22 Narcan kit wall signs, and 4,000 condoms. They were also able to support the Tuscola Community App which brings awareness to services throughout Tuscola County for residents.						
	Outcome Reporting						
	No	Program/Activity	Outcome				
	1	MOUD Treatment in Tuscola County Jail	Provider 21 provided support to two individuals in the jail. One person completed an ASAM and was scheduled to start MOUD services upon release from jail. Another person was assessed and was scheduled to begin medication and support services. The provider did not receive any other referrals for MOUD services over this reporting period.				

Tuscola	2	Weekly Treatment Groups in Tuscola County Jail	Provider 21 was successful in providing treatment groups in the jail. Over this reporting period they provided 18 groups with 8-10 participants on average for each group. The inmates provided positive feedback regarding the group services.				
	3	Disposal of 10 Sharps Bins	Provider 21 was successful in disposing of 450 gallons of sharps in the community.
