Purpose

Mid-State Health Network (MSHN) is required to develop a budget annually and present to the Board of Directors for approval prior to the beginning of the fiscal year.

Procedure:

In July of each year, the Financial Manager conducts meetings with MSHN Chiefs, Directors and Administrators to discuss operational plans for the upcoming fiscal year for the purpose of developing the annual budget. Discussions include, but are not limited to; department staffing needs, administrative contracts, staff licensure and training needs, work-related travel needs, and any other financial considerations to conduct strategic plan objectives. During these annual meetings, the current year budget is reviewed to determine if any amendments are needed.

The Financial Manager will calculate revenues using the information available such as capitation rates, grant awards, and other anticipated revenues. The budget for Community Mental Health Service Program (CMHSP) and Substance Use Disorder service-related expenses will be determined based on submitted requests and/or historic service utilization.

Once the budget has been developed, the Financial Manager presents a draft to MSHN's Leadership Team and Finance Council. The Chief Financial Officer presents the draft budget to Operations Council during August for review and feedback and then to MSHN's Board of Directors in September. Michigan Department of Health and Human Services (MDHHS) rate certification delays and other budget completion delays may impact the ability for reviews by stakeholders as noted directly above.
