

Chapter:	Utilization Management		
Title:	Level of Care System (LOC) for Parity		
Policy: <input checked="" type="checkbox"/>	Review Cycle: Biennial	Adopted Date: 03.03.2020	Related Policies: Service Philosophy Utilization Management
Procedure: <input type="checkbox"/> Page: 1 of 2	Author: Chief Population Health Officer; UM Committee	Review Date: 05.07.2024	

Purpose

The purpose of this policy is to define the expectations for Mid-State Health Network (MSHN) and its Community Mental Health Service Program (CMHSP) participants related to ensuring consistent application of medical necessity criteria by implementing the regional admission and service guidelines that include service code-level thresholds for individuals via a nationally recognized recommended Level of Care (LOC) instrument [i.e. Child and Adolescent Functional Assessment Scale/ Preschool and Early Childhood Functional Assessment Scale (CAFAS/PECFAS) or Level of Care Utilization System (LOCUS),], and person-centered planning process. This is used to address compliance with the Mental Health Parity and Addiction Equity Act of 2008.

Policy

MSHN and its provider network shall ensure that medical necessity determination decisions are informed by the MSHN Admission and Service Selection Guidelines. It is the policy of MSHN and its CMHSP participants to use objective evidence-based criteria and best practices, objective service utilization patterns and the person-centered planning process that includes consideration of the individual circumstances and the local delivery system when determining medical necessity. MSHN and its CMHSP participants use nationally-recognized criteria based on sound clinical evidence to ensure a consistent benefit across the region, (MCG Behavioral Health Medical Necessity Guidelines), need identification instruments, and the person-centered planning process to make utilization management (UM) decisions for behavioral health services as well as for agreed upon thresholds comparable to all Michigan Pre-Paid Inpatient Health Plans (PIHPs).

MSHN delegates all access, authorization and utilization management functions for behavioral health services to its CMHSP participants, which must operate in compliance with regional policy and procedure.

Applies to:

- All Mid-State Health Network Staff
- Selected MSHN Staff, as follows:
- MSHN’s CMHSP Participants: Policy Only Policy and
- Procedure Other: Sub-contract Providers

Definitions:

CAFAS: Child and Adolescent Functional Assessment Scale

CMHSP: Community Mental Health Service Program

LOC: Level of Care

LOCUS: Level of Care Utilization System

MCG: MCG Health is a software vendor who offers a proprietary product, the MCG Care Guidelines. The MCG Care Guidelines were selected by the Michigan Parity Workgroup as the tool to be utilized by all Michigan PIHPs and CMHSPs to provide care guidance for acute behavioral health services.

MSHN: Mid-State Health Network

PECFAS: Preschool and Early Childhood Functional Assessment Scale

PIHP: Prepaid Inpatient Health Plan
