Council, Committee or Workgroup Meeting Snapshot

Meeting: Information Technology Council

Date: January 17th, 2024

Jesse Bellinger, BABH
Michael Maksymetz, CEI
Martin Slominis, CMHCM
Shannon Froese, CMHCM
Kevin Faught, CMHCM
Brian McNeill, GIHN
Josh Williams, LW
Terry Reihl, MCN
Jay Hollinger, NCMH
Lynn Martin, NCMH
Dave Dunham, Saginaw
Holli McGeshick, Saginaw
AmyLou Douglas, Saginaw
Kyle Aubry, SHW
Jennifer Tucker, SHW
Jill Carter, TRD
Nathan Derusha, TRD
Josie Grannell, TBHS
Steve Grulke, MSHN
Joseph Wager, MSHN
Linda Proper, MSHN
Ron Meyer, MSHN

"CBrown"
"Rich"

KEY DISCUSSION TOPICS

Consent Items
1. Roll Call, November 15 snapshot – All

Informational Items
2. MDHHS communications? – Steve

    a. Invalid NPIs (Dec 27)

    b. BH TEDS Error code 2778 JJ fixed (Jan 8)

    c. February Medicaid renewals list (Jan 10)

    d. BH TEDS Missing list/summary FY23/FY24 (Jan 11)

    e. FY24 encounter recon file (Jan 11)

    f. FY23 encounter recon file (Jan 12)

    g. Encounter correctness (Jan 16)

    h. Performance metrics draft (Jan 16)

3. BH-TEDS and Encounter submissions – Shyam/Linda/Ron

4. Discussion of Encounter reporting process (error file purpose).

5. DECIPHeR meeting with PCE Friday.

6. EVV use of HHAeXchange or other system of your choosing.

7. MCG Upgrade status

8. CIO forum update – December 1 – already covered, next is Jan 26

9. Other – All

    ITC meeting on January 17 - Zoom call only.

10. CCBHC IT operational concerns/questions (as time allows)

	a. Encounter submission document (DCO identification) in meeting folder.
	11. BHH IT subgroup (as time allows)
	Central, Montcalm, Newaygo, Saginaw, Shiawassee and GIHN

	• Only two CMHs received Invalid NPI files in December.
	• BH TEDS Missing List is in FTP
	• Notice of Encounter Correctness reminders indicated that the original encounter claim number should be included on all future corrections. PCE does not necessarily do this automatically. There are situation where this can be exceptionally difficult like wrong client or Staff or not one-to-one change like 1 service becomes multiple or vice-versa.
	• The performance metrics draft is available for comment.
	• TEDS and Encounters submissions have been submitted regularly without issue.
	• The purpose of the error reports for each CMH is to inform everyone what MSHN sees after the State accepts encounters that have cleared through PCE. Sometimes the State will reject as an error something which PCE has accepted, and there is currently no automated process by which the CMHs can see when this happens. There is no obligation to respond to MSHN for an error report, but addressing them with either PCE or the State is recommended.
	• DEciPHeR is a statewide system designed to collect health information. At least 4 CMHs in MSHN are either using this system or considering using it. Brian has suggested in the workgroup that a PCE module be created for this purpose.
	• MMI is implementing an EMR called THEROP and looking to integrate it with GIHN's EMR soon. It contains its own EVV.
✓ **KEY DECISIONS**	• Interest in using HHAeXchange, the State's EVV system, is being gauged presently among the CMHs. Despite concerns about implementation, the consensus appears to come down to cost. As budgets are being reduced, spending money on a

	separate system is a greater concern than utilizing a preferred system. Steve will send a poll to measure specific interest among the CMHs.
	• HHAX has offered technical assistance sessions, but new information about specifications has not been offered to anyone's knowledge.
	• MCG, the parity software, should complete its upgrade in the next two months.
	• The next CIO Forum is January 26th.
	CCBHC:
	There were 10 services that were not identified with a CCBHC and/or without the DCO listed. Several attributed to MSHN only have come through on the SUD side, and it is still unclear how the State will attribute these services and encounters. A solution to this remains equally unclear.
	BHH:
	If the absence of items for BHH continues, this subgroup may be converted to a standing agenda item for the greater ITC meeting.
✓ **ACTION/INPUT REQUIRED**	• Steve will let Joe know that the state is requiring the original encounter claim number, and that PCE adds the original number but can't know how the state will use it.
	• Brian McNeill will forward on information about DECIPHER
	• Brian will connect with CMCMH and ITC about THEROP information
	• Steve will send a poll to determine interest in using HHAeXchange for EVV
✓ **KEY DATA POINTS/DATES**	• Next ITC Meeting: February 21st, Remote only
