REMARKS

Federal Terms and Conditions for SAMHSA Grant Awards

This document outlines the federal terms and conditions applicable to your Substance Abuse and Mental Health Services Administration (SAMHSA) grant award. Please review these requirements carefully to ensure compliance throughout the life of the award.

Accepting the Award
By drawing funds from the Department of Health and Human Services (HHS) Payment Management System (PMS), the recipient acknowledges acceptance of the award's terms and conditions and agrees to comply with all requirements.

HHS requires recipients to draw down funds within the first 30 days of the period of performance to indicate acceptance of the award. If the recipient fails to draw down funds or provide an acceptable written justification for the delay within this 30-day period, SAMHSA may take action to amend or withdraw the award.

Once an award is accepted by the recipient, the contents of this NoA are legally binding unless and until modified by a revised NoA signed by the Grants Management Officer (GMO).

Declining or Negotiating the Award
If the recipient cannot accept the award terms, the recipient's Authorized Organizational Representative (AOR) must notify the GMO in writing before drawing down any funds, and no later than thirty (30) days after receiving this NoA.

Alignment with SAMHSA Mission and Strategic Priorities
The recipient of this award must implement any funds awarded under this NOFO to advance program goals or agency priorities in alignment with the agency priorities at SAMHSA's Strategic Priorities when authorized by the program statute.

Use of Supplies and Services for Harm Reduction Activities
SAMHSA recipients are prohibited from using Federal funds, directly or indirectly, including through cost-sharing, matching funds, or subsequent reimbursement, to support so-called "harm reduction" or "safe consumption" efforts that facilitate illegal drug use.

Grant funds may not be used to purchase, distribute, or support drug paraphernalia as defined by law. This includes, but is not limited to, syringes or needles for illicit drug injection; pipes or supplies for safer smoking kits; fentanyl test strips or any other substance test kits, including xylazine and medetomidine test strips*; distribute any other drug paraphernalia or supplies that promote or facilitate drug use not listed here; purchase or distribute any other drug paraphernalia or supplies that promote or facilitate drug

use not listed as acceptable in the Dear Colleague Letter: Updated Funding Guidance for Grantees on Supplies and Services (April 24, 2026). Funds also may not support overdose hotlines whose primary purpose is to enable drug use by providing real-time virtual or phone-based accompaniment.

These restrictions do not prohibit funding for legally permissible, evidence-based activities, such as the distribution of life-saving overdose prevention and response services, including purchase/distribution of naloxone or nalmefene and/or other infectious disease prevention services.

Failure to comply with the programmatic requirements in these letters: Dear Colleague Letter: Executive Order on Ending Crime and Disorder on America's Streets America's Streets and the Dear Colleague Letter: Updated Funding Guidance for Grantees on Supplies and Services (April 24, 2026) (which provides updated guidance for grantees on the supplies and services previously defined under harm reduction that can be supported with SAMHSA funding), may result in enforcement actions consistent with 2 CFR 200.339 and 2 CFR 200.340 and the terms and conditions of this award.

_____

**This prohibition does not apply to law enforcement, emergency medical services, public health officials, or healthcare professionals using drug testing technologies in the regular course of discharging their professional duties, or as specifically authorized by the program statute.*

Appropriate Use of Funds for Medication-Assisted Treatment (MAT) / Medications for Opioid Use Disorder (MOUD)

As referenced in the Dear Colleague Letter: Updated Guidance on Medication-Assisted Treatment (MAT) and Medications for Opioid Use Disorder (MOUD), SAMHSA funding should be used to provide comprehensive treatment and recovery support services rather than medication-only models for opioid use disorder. Services should include medications, where clinically indicated, in conjunction with psychosocial and other treatment and recovery support services. Funding can also be used to support individualized tapering and discontinuation of medications when clinically indicated.

Upon achieving stability in treatment and building sufficient recovery support, and at least annually, clinicians should engage in a discussion with patients to assess treatment and recovery goals and the continued use of medications. Continuation should be evaluated on an individual basis, taking into consideration progress toward treatment goals, stability in treatment, recovery capital, and patient preference.

When a shared decision to discontinue medication is made, discontinuation should be a gradual process with intensified support and monitoring to guard against resumption of drug use and done in the context of ongoing comprehensive care.

SAMHSA funding should be used to provide training to clinicians and other behavioral health providers on the clinically appropriate use of medications in the treatment of substance use disorders, including options for safe tapering and discontinuation when clinically indicated, and regular, at least annual, reviews for continuing treatment. This training should include strategies to support shared decision-making by ensuring patients are fully informed of the risks and benefits of medication treatment initiation, continuation, and discontinuation. Training must ensure providers educate patients about and facilitate access to comprehensive substance use treatment and recovery support services.

Training should include tools to support the development of individualized comprehensive treatment plans with patients that include consideration of medication treatment duration, and tapering and discontinuation, as clinically indicated based on the patient s individual circumstances, recovery, and preferences.

Failure to comply with the programmatic requirements found in: Dear Colleague Letter: Updated Guidance on Medication-Assisted Treatment (MAT) and Medications for Opioid Use Disorder (MOUD), may result in enforcement actions consistent with 2 CFR 200.339 and 2 CFR 200.340 and the terms and conditions of this award.

- The above requirements are conditions of payment that go to the essence of the Agreement and are therefore material terms of the Agreement.
- Payments under the Agreement are predicated on compliance with the above requirements, and therefore Recipient is not eligible for funding under the Agreement or to retain any funding under the Agreement absent compliance with the above requirements.
- Recipient acknowledges that this certification reflects a change in the government's position regarding the materiality of the foregoing requirements and therefore any prior payment of similar claims does not reflect the materiality of the foregoing requirements to this Agreement.
- Recipient acknowledges that a knowing false statement relating to Recipient's compliance with the above requirements and/or eligibility for the Agreement may subject Recipient to liability under the False Claims Act, 31 USC 3729, and/or criminal liability, including under 18 USC 287 and 1001.

Compliance with Court Orders
Any term or condition in this NoA, including those incorporated by reference, that HHS is enjoined by court order from imposing or enforcing shall not apply or be enforced as to any recipient or subrecipient to which that court order applies and while that court order is in effect.

Termination
This award is subject to the termination provisions at 2 CFR 200.340. Pursuant to 2 CFR 200.340, the recipient agrees by accepting this award that continued funding for the award is contingent upon the availability of appropriated funds, recipient satisfactory performance, compliance with the Terms and Conditions of the award, and may also otherwise be terminated, to the extent authorized by law, if the agency determines that the award no longer effectuates program goals or agency priorities.
