	• Other updates – PIHP CFO, PIHP Operations, EDIT –
	  ○ PIHP CFO – The October notes have been saved to Box.
	  ○ PIHP Operations – No discussion
	  ○ EDIT – With the H0043 and T2026 codes having a range of hours, is anyone doing a range in the rates? Some are using the consumer IPOS and determining the rate based on the current 15-minute rate. What is the implementation date? The EDIT minutes note a 90-day window, but the L letter states November 1st. Amy will send a follow up to EDIT.
	• Savings Estimates – Based on the interim FSR, savings is projected to be $42.4M or 5.2% of total revenue. The first savings band is fully funded, and savings has reached the second band that is shared with MDHHS resulting in a projected lapse. There is also a contribution to ISF of $25.3M bringing it to a total of $61.7M or 7.5% of total revenue making it fully funded. The estimates include the projected revenue from the final rate amendment; actual results may vary.
	• Sharing things that we have learned that could be helpful to others –
	  ○ Is anyone doing rate increases now that the revenue information has been received? Some gave small increases at the beginning of the year, and some are increasing rates in January.
	  ○ Has the local match amount been determined? The amount is the same as the previous year and should be paid according to the schedule that was emailed in October.
