- 5515 Consent form training/recording available

- MDHHS communications are available in either Email or FTP
- We only received a small portion of the FY 26 Encounter Recon file.
- Tuscola has completed adding the Telehealth column in their provider directory. This is a requirement and all CMHSPs must add this.
- A reminder that CMHSPs should not be paying for MiHIN
- A reminder to notify MSHN when CMHSP staff leave, so that we can remove REMI and BOX access from any associated accounts.
- A reminder that Michelle is asking for follow-up from several CMHs that one agency which contracts with multiple CMHs has very low compliance scores in their EVV system.

✓ KEY DECISIONS

	• State audits, which are approaching quickly, will necessitate elements from Autism data. LifeWays will be rolling out the PCE AUT module in FY27. MCN has their Autism information in Power BI currently. • ITC will meet virtually next month. Behavioral Health Home Subgroup: Montcalm is having an internal discussion about how to handle the treatment/provider section, as the Consented Party section is expiring, even if the entirety of the TPO has not. Other BHHs indicate that they are not running into this problem.
✓ ACTION/INPUT REQUIRED	• Shyam will reach out to Sha for updates on the FY26 Encounter Recon File • Joe Wager will resend Skye's email regarding the MSHN Authorization tracking dashboard and data collection • Wager will resend the requirements for UM/CLC definitions for Standard, Expedited, and Extended. • Wager will clarify the specifications that CLC is requiring with how Autism data is presented.
✓ KEY DATA POINTS/DATES	• Next Meeting is September 16th, all-virtual
